## THE ABS MISSION

Our mission is to assist and encourage informed decision-making, research and discussion within governments and the community by providing a high-quality, user-oriented and dynamic statistical service; we will actively coordinate statistical activities across government agencies and promote the use of statistical standards.

## SERVICES AVAILABLE FROM THE ABS

We can provide you with information, advice and a range of statistical products that will help you make the right decisions - whether you need the information for planning, performance measurement, investment decisions, research or keeping up with trends.

## SUBSCRIPTIONS AND BOOKSHOPS

We have around 500 publications available on a subscription basis, and our Bookshops can meet your needs for one-off purchases. If you would like to receive any of our publications on a regular basis, you can become a subscriber, have your publications mailed to you on day of release, and renew your requirements at any time. Catalogues of our publications and products are available free on request from our Bookshops. See the back cover for full address details.

## INFORMATION CONSULTANCY

The Information Consultancy Service provides personalised assistance to meet more complex information needs. Our consultants can help you if you have special information requests, such as tailored data compilations or in-depth data investigations. Our consultants are experienced in providing the right advice and assistance for matching our information to your needs. Call them on the inquiries number listed on the back cover.

## ELECTRONIC SERVICES

A growing range of our data is available on electronic media. Our PC-Ausstats service provides you with the capability of on-line access to an ABS database containing many thousands of up-to-date time series of socio-economic data. We have a range of summary information available on DISCOVERY 40 (Key#656). Our Telestats service can provide you with a number of major economic indicator publications which you can download into your PC soon after embargo on day of release, as well as a range of tailored foreign trade information. We can also supply a range of our information on floppy disk or CD-ROM. For more information on our electronic services, see the centre of this publication.

## General Information

This listing shows ABS printed publications to be released in 1993 grouped under subject headings such as Health, National Accounts, Finance, Agriculture and Building and Construction. On page 1 is a list of Main Economic Indicator publications which, together with *Year Books*, the *Monthly Summary of Statistics*, the *Australian Economic Indicators* and the *Statistics Weekly*, represent ABS best sellers.

This listing has been developed primarily to enable users to select printed publications to which they may wish to subscribe in 1993. By subscribing, users ensure regular and prompt delivery of ABS publications throughout the year.

ABS publications for which no issues are to be released in 1993 are not shown in this listing; however, information on previously released publications is available from ABS offices as listed on the back cover of this publication and from the comprehensive *ABS Catalogue of Publications and Products*.

## A Note on Prices

The prices shown are for an annual subscription for 1993.

If a subscription is taken out, prices are set for the period of the subscription. Prices of ad hoc purchases, however, are subject to change during the year.

Prices include postage both within Australia and overseas (economy air).

Prices for some publications have yet to be set. These publications are shown as 'p.o.a.' indicating 'price on application'.

#### 1313.8 Canberra Statistical Area Summary

This publication was first released in 1991. It contains summary information relating to area, population, dwellings, births, deaths, infant deaths, natural increase, building activity, retail trade, manufacturing activity, tourist accommodation, road traffic accidents, preschool and child care centres and schools for the statistical subdivisions and the statistical local areas of Canberra.

#### 1315.0 Concepts and Methods of Seasonal Analysis

This publication provides a uniquely comprehensive coverage of the theory underlying the seasonal adjustment of statistical series and of the adjustment methods used by the ABS.

#### 1350.0 Australian Economic Indicators

Presents a statistical summary of recent developments in the Australian economy. It includes comprehensive tables and charts, commentaries and occasional articles and technical notes. It is an invaluable reference document, providing a broad basis for analysis and research on the Australian economy and includes statistics which can be applied to both macroeconomic and specific sectoral analyses.

#### 1262.0 ABS Classification of Qualifications (ABSCQ)

The ABS Classification of Qualifications is a new classification designed to classify post-school educational qualifications, by level of attainment and field of study. It was developed specifically to classify data on qualifications collected in the 1991 Census of Population and Housing. It comprises an explanation of the conceptual basis of the classification, definitions of the level of attainment categories and of the broad, narrow and detailed field of study categories, and a set of conversion tables which define the relationship between ABSCQ and other relevant classifications. Its primary purpose is to aid the interpretation of ABS statistics on qualifications. Users wishing to code their own qualifications data to the classification should refer to *ABS Classification of Qualifications - Manual Coding System* (1265.0), which includes the coding indexes used to code qualifications data in the Census.

#### 1291.0 A Guide to Major ABS Classifications

The guide is intended to provide an overview of the major ABS classifications and assist users wishing to gain a broad understanding of these classifications. This will aid the interpretation and analysis of statistics provided by the ABS. The classifications referred to in the guide relate to industry, geographical areas of Australia, production and trade commodities, countries, occupations, government finance and offences. In addition to providing a ready description of the nature of these key classifications, the guide gives details of ABS products that are available to be used in association with the classifications.

# CENSUS OF POPULATION AND HOUSING 1991

## 2710.0—8 *Census Characteristics of States*

Series provide a comprehensive set of one or two page tables on selected topics within broad categories of birthplace, income, labour force, demography, housing and other social characteristics. There is a separate publication for each State, Territory and for all Australia.

## 2730.1—8 *Census Counts for Small Areas*

These are the first final population and housing counts from the 1991 Census. There are separate publications for each State and Territory, containing counts of persons and dwellings at local government area, statistical local area, statistical division, urban centre/locality and State levels. Data from the 1986 Census are included where applicable. Publications include maps.

**3228.0 Population Estimates: Methodology and Sources of Data**  
Describes the methods used to compile population estimates at national, State and local area levels. Also covered are data sources and assessment of accuracy, and legislation pertaining to population estimates. There is a brief summary on the uses of population estimates. Eight appendices expand on technical aspects.

**3311.1 — 3311.8 Demography, (State or Territory)**

Compendium publications containing tables and commentary on State trends in population, births, deaths, marriages, divorces and migration. Data include population estimates, demographic events cross-classified by socio-economic characteristics and various demographic rates. Small area data on births and deaths are also included.

**3401.0, 3402.0, 3404.0 Overseas Arrivals and Departures**

These monthly, quarterly and annual publications contain detailed data on migration and overseas tourism. Migration data include origin/destination and characteristics of immigrants/emigrants. Overseas tourism data include market oriented information on visitor arrivals and Australian departures.
